**Transcript** (with improved grammar in **red**)

***Examiner:***

You may start now.

***D:***

Er, let's start our discussion. Er, today, we're going to prepare for a debate in class, ... the title is ... cruel foods. Er, before ... we start the discussion ... we should ... define what is ... cruel food. Er, in my view, ... if, ... if the animal ... ~~died~~ **dies after** ... just suffering ~~from~~ a short period of ... pain, ... it doesn't belong to a cruel food. Er, ~~otherwise~~, ... ~~if the animal just ... suffering~~ ... if the slaughter**house** ... **kills** them within ... one second or ... two seconds, ... ~~this will ... belong to~~, this will not belong to cruel food. Yes, so, ... what do you think?

**C:**

Yes, I agree ~~to~~ **with** you, and your definitions are really good. Erm, so, let's move on to the first topic we need to discuss. Erm, the food**s** that come from animals which are ... cruelly treated, ... ~~maybe the~~ **for example**, dog's meat. Erm, although some laws were set up to protect the dog's right, ~~but~~ ... ~~there~~, there are some cities in China ... which allow people to eat dog's meat. Erm, as I heard from others, ... people will insert a sharp spear ... into the dog's organ, such as their heart, or their brain, and then kill them ... **It is** really painful.

**B:**

Yes, as I am a dog lover, ... **I think** ~~your, your~~ ... dog meat is really a cruel food. Erm, so, another thing **is**, ... I think caviar is also a ~~very~~ ... food from animal**s** ~~which is~~, which are cruelly treated ... and caviar is a **the** egg**s** of fish or shrimp, and caviar ~~will~~ **is** put ~~onto the~~ **on** top of sushi and bread for the customer. And it is expensive and normal group of people **like us** couldn't afford it, ~~like us~~, but some rich people, they can afford it ~~and~~ ... and eat ~~them~~ **it**. So, ... actually, why I think it is a cruel, ~~cruelly~~ food, because ... they are actually ~~baby~~ **babies** and they will **be** born and grow **to** become a fish, but before that ... they are, they were killed, so ~~this is~~, I think this is ... cruelly treated **food**.

**A:**

Yes, I agree with you that ... fish eggs is a cruel food because ~~the~~, the fish mother cannot protect her baby, she must be very ~~desperated~~ **desperate**. And, I also think ... monkey brain is a kind of cruel food. And, in some ~~city~~ **cities** in mainland China, ... people

there ~~would eat~~, would cut **open** the ~~brain~~ **head** of **a** monkey while the monkey is still alive, and eat ~~their food~~ **its brain**. This is very cruel to the monkey and it would be very painful.

**D:**

Er, I have ~~another idea of~~ **a different view on** this. Er, as you said, ... fish is a cruel food but I don't think so. Because ... ~~from~~ my ... definition ... is not ... just **kill**ing the fish, just ... **in** one second, ~~they~~ ... they don't need to ... suffer ... ~~from~~ a long period of pain. So, I think ... ~~this ... can't~~, this fish can't belong to cruel food. Er, and I think ... what is cruel food? ... take ... shark fin ... soup as an example. Er, when a ~~slaughter~~ **shark hunter** takes ... shark fin, they will ... cut off their fins and ~~throw them to the~~ ... throw **them** back ~~them~~ into the water. And ~~leaving the~~ ... leaving them to ... drown and bleed to death. So, I think ... **the** shark is ... suffering ~~from~~ a long period of pain, so, I think ~~this is~~ ... this belongs **s** to a cruel food.

**C:**

Yeah, er, your points are really good. Erm, so, we need to move on to the next topic. I think there are some arguments for the motion. Firstly, the motion will **be** able to raise the awareness of eco-balance and ... **environmental** protection. Erm, because ... actually, I think humans should not destroy the ... natural habitats. Otherwise, we will suffer something really bad. Yeah, what's your opinion?

**B:**

Yes, in order to maintain the eco cycle, ... we should stop killing animals and ... provide a better environment for them to live ... and give ~~birth to babies~~ **birth to babies** ~~baby,~~ and ... ~~born some ... born eggs~~ and they'll grow, and maintain the eco cycle.

**A:**

Erm, actually I think if ... just only eat, eating food of ... made of ~~from~~ animals may not ... ~~destruct~~ **destroy** the eco cycle, but ~~killing~~ them in a ~~cruelly~~ **cruel** way, it would ... ~~would~~ make them more painful.

**D:**

Yes, I agree with you. So, ... today we should discuss ... more about ... ~~what type of .....~~ ~~about some examples~~ **s** of ... cruel food, or ..... I ~~talk~~ ... ~~once~~ **let me give one** more example, like ... goose liver. Goose liver ... as we know, ... the taste is very ... creamy. Because ... the process of making goose liver is ... some people ... ~~some people~~ ... force them to eat a large amount of corn. So, ... during this ... ~~during this~~ ... period, they will ... suffer a ... great deal of ... pain. So, I think ... ~~this thing is .....~~ this thing can **be** avoided**ed**. So, I think ... this goose liver is also a ~~cruel~~, cruel food.

**B:**

Yes, ... although treating animals cruelly is ... can be counted as ... not a good behavior, some people ~~also~~ ... **are** against this motion. Because they think that animal ~~meats~~ **meat** contains a lot of ~~nutritions~~ **nutrition** such as proteins, which ~~is~~ **are** necessary for us to rebuild our skin and organs' development. Er, and they ...

~~they said~~ **say** that ... we can use some ~~unpain~~ **painless** methods ~~to~~, to kill animals so that they couldn't feel any hurt or pain. And we can also treat them well before **they're** killed.

**C:**

Yeah, I get your point. It's really good. And also, I think, some of the ... meat, or some of the organs from the animals, can be ~~some~~ ... some herbal treatments **s** for different diseases **s**. Erm, because ~~there are~~ a lot of traditional Chinese doctors **s** ~~will~~ use this kind of animals.

**B:**

So, today we have **had** a very fruitful discussion. Thank you very much.

[End of discussion]
