

HKDSE Examination 2012: English Language Paper 4

Question 1.1 : An intern in Hong Kong

Group Discussion Demonstration (recorded in Aug 2015):

<i>Candidate</i>	<i>Year</i>	<i>Level attained in DSE Eng Lang Paper 4</i>
A	2015	5**
B	2015	5
C	2015	5*
D	2015	5**

Transcript (with improved grammar in red)

Examiner:

You may start now.

B:

Good evening, everyone. We are going to write a report about professional internship in Hong Kong. Erm, perhaps let's ... discuss how an unpaid internship could be beneficial. In my opinion, ... ~~students can~~ ... interns can **be exposed** to a new environment which is different from their school life. They can get to know more about the details of the working environment and plan about their career path ... right before they choose their jobs and choose what to learn in the university. ~~So, I think it is~~ ... therefore, it is beneficial for them.

A:

Yes, I agree that for secondary school students, ... ~~they can~~, ... by attending unpaid internship, they can know more about a profession and choose what to study in the university. Er, but, for university students, I guess an unpaid internship will ... provide them **with** more understanding ... of ~~their~~ **the** career that they are going to choose. Because these internships are always designed for students ... ~~who have~~ ... who do not have a very deep understanding ~~on~~ **of** the career, so ~~they can~~ ... ~~do~~ ... ~~what~~ ... they can perform some jobs ~~of the~~ ... in that company and know more about the job they are going to do in the future.

D: Yes, I ...

C:

I share the same view with you that ... unpaid internship could be beneficial in terms of gaining working experience for their future career. Besides, I believe ... it is also beneficial in terms of ... having good interpersonal skills and also, meeting some new friends. And, as they have to, maybe, get on with their clients, and they have to interact with their colleagues and also clients, **that** they need to have better communication skills in order to have ... ~~these ... have the skills to~~ get on well with these people. And I think going to these unpaid internships **s** could be beneficial to help them have a better ~~interpersonal~~, interpersonal skills. What do you think?

D:

Yes, I also think ... an unpaid internship can ... is a really unique experience for, for a student to ... develop his, or her interpersonal relationships. As ... in a school, or in a university, ... ~~it's really,~~ it's really hard to ... to find opportunities like to ... to really work together ... to communicate together to achieve a task which is actually important, which is not a school project, which is not ... only ... perhaps ... gathering info, or make ... or ... merely writing something to ... to hand in as homework. It's really something that matters. That makes ... this ... unpaid internship ... a good opportunity, a good chance for a student to ... to learn how to communicate with a lot of other people.

B:

Apart from enhancing the good interpersonal skills, I think ... ~~it is unofficial~~ for interns, is ... ~~is that~~ ... it's similar to a mentorship programme. Like, ... for some senior staff, ... they will act like a mentor and ~~teach the interns~~ ... ~~about~~ ... teach the interns the technological skills or some specialised skills about the career and their jobs ~~so they will be~~ ... and also if ~~there are any~~ ... they ... if the interns have any enquiries about the career path in the future, they could also have the connection to ask the mentor. So, ... ~~these are some~~ ... these are some benefits for the unpaid internship. Perhaps we can, let's move on to the challenges of being a summer intern. What do you think?

C:

Sure! I think one of the major challenges is that ... the students may not have the professional knowledge in that industry ... so

that they may not be able to assist their colleagues to finish the task, or complete their jobs. And I think it would be a main challenge for them. According to some of my friends, ... they have also mentioned that ~~they~~, they do not have the knowledge to help **their colleagues** ... ~~in~~ ... while they are working, so it will be quite complicated and ~~they may not~~ ... they may not know what's going on and this may not help them to complete their task. And I think it'd be quite a challenge. Do you have any other challenges to add ~~in~~?

A:

I agree that ... ~~being a summer intern may not~~ ... the students may not have the experience or the skills to complete the job because ... they may only have to stay one or two months. The experienced colleagues ~~may not be~~ ... may not be willing to teach them some skills because they know that they will be leaving in a month's time. Erm, for example, some of my friends who are ~~attending the~~, a **working as** summer interns in hotels told me that ... they are only able to do the job of the bell boy because they are not experienced and it will be a challenge ~~that~~ **because** they can only perform some ... tiring job. So, do you agree with my viewpoint?

D:

Yes, I think the biggest problem of being a summer intern is that ~~we as~~ if we are taking part as a summer intern, we are completely unfamiliar with the work environment, ~~which~~ ... which is completely new to us. We haven't been in that position before. That makes us ... very vulnerable ~~to~~, to challenges, to difficulties

which we may face in the workplace. Er, this would really call for some good characteristics of an intern, which ... we should have as one. Er, I think the most important one would be the willingness and eagerness to learn, as in the office, we, of course, are the ... least experienced. We almost know completely nothing about what happens around there, and ... because of this reason, we have to learn, we have to be willing to, to hear advice from other experienced workers ... and colleagues. Er, that makes us a good intern.

C:

Erm, it is true that a good intern ~~should be able~~, should be willing to learn. And I also think that a good intern should be patient and also ... diligent in ... in order to ... to gain working experience, as they have to listen to some senior staff and to gain experience from them so that they can perform their job well. And ~~they will~~, they will be able to listen to more advice if they are patient so that they can have a better job and also have a better relationship with their colleagues.

B:

I believe that patience is ~~the~~, one of the most ... important characteristics of being a good intern because ... normally the senior staff ~~are~~, are very busy, and, ... with their work, so ~~they don't have~~, they have to spare extra time to teach the interns about the new things and help them to get adapted to the environment. So, ~~the~~, the interns must be very patient ... to listen and wait for the senior staff to explain the stuff. And ... also, they should be polite ... and may ask some simple questions

when they have any enquiries so that they can get more information about ... **their job.**
