You may start now.

A:

Good evening, everyone, as we are organizing a Health Awareness Fun Day for our school, so why don't we first talk about which of the activities in the extract above will be most suitable for a Health Awareness Fun Day? Erm, I think that lion dancing will be the most suitable activity because for a Health Awareness Fun Day, we would like to promote exercise and ~~attracts~~ **attract** more students to join this activity ... I guess we have to choose a **the** most interesting activity. Among the 3 activities mentioned, household chores ... may be very boring because many students nowadays **s** are not willing to do housework ... and for photo racing, because it is held in a school, the students may be bored of ... taking photos at a school. So,

lion dancing would be the most interesting one and it would be most suitable for the awareness fun day. So, do you agree with my viewpoint?

D:

Yes, I also think ~~lion~~ ... lion dancing would be ... the most ... suitable event ~~to~~ ... to place in the Health Awareness Fun Day. First of all, it's because lion dancing itself ... is an activity, is a pastime ~~for~~ ... which ~~Hong Kong~~, Hongkongers are very familiar with. We ... ~~we~~ see them during ... maybe ~~in~~, ~~in~~ **the** New Year's **Year** festival, which ~~makes it~~ ... makes it familiar **to** ~~with Hong Kong~~, Hongkongers. And thus ... students in Hong Kong, ~~as we~~ are **like us**, ... would be quite interested in seeing the event and perhaps ~~have~~ ... ~~have~~ **having** the opportunity of participating in it even.

C:

I understand that lion dancing is an interesting exercise, and also it is effective in promoting exercise. However, I believe photo racing ... ~~could, should be~~ ... should be the most suitable activity for the Health Awareness Fun Day. Because it is more suitable for ... all the students at school, as there are no special qualities or skills required and all students can join this activity and ~~they~~ ~~are~~, they will be interested in this activity. Because lion dancing is quite an exciting activity which may be a bit dangerous and not many students will be interested in this activity. So I think photo racing ... will be a more suitable activity. What do you think?

B:

Yeah, for lion dancing, ... maybe it requires students to be more flexible and they have to ... jump up and down on the a stand. So, perhaps, it's ... in terms of the safety problem, it's a ... a bit of dangerous. So, ... however, for photo racing, it's suitable for all age groups in the school ... ~~even in the second~~ ... ~~even in the~~ it is suitable for junior forms or the senior forms. And also, it ... it is more safer than lion dancing. And students can enjoy the city view while they are running around the city and discover some special scenery in our living the place where we live. And it is a good chance and a good motivation for them to ... to enjoy the view and know more about the city ... while doing some exercise.

A:

Regarding the safety problems of lion dancing, I guess there are different levels of lion dancing. Erm, I mean that some beginners may ... only need to try some simple gestures moves or dance steps, so it may not be that dangerous for the students to participate in. But in photo racing ... it may not be feasible to ... to organize this activity because the students need to carry a heavy and professional cameras ... which the school may not ... be able to afford. So, it may not be feasible. Erm, what do you think about this?

D:

Yes, I think ... the safety problem in lion dancing is ... not at all a serious problem for lion dancing because ... the difficulty ... of ... the ... moves, the gestures may be, may be adjusted according to the abilities of the performers, which makes the ... the whole ...

the activity less dangerous according to the actual situation. And ... I think one aspect where ... lion dancing ~~would~~, would be better than photo racing is that it really fulfills the word "fun" in ... ~~puts the word "fun" in~~ **the** Health Awareness Fun Day, as ... ~~it's~~, it's not only a sport, but also a performance. It brings, ~~it brings~~ pleasure for the performer and of course ... health for the performer, ~~as~~, as ... it itself is a kind of sport. And ~~it~~, it also ~~bring~~, brings pleasure for the viewer, for the audience and at the same time encourages them to, maybe, take part in this ... wonderful activity in the future, which raises their health awareness. And ... ~~let~~, maybe let's talk about the ... other possible problems while ... organizing ... the Fun Day.

B:

Erm, apart from the safety problem, I think we should also beware that ... in the summertime, it is usually too hot and ~~people might get~~ ... some students might ... easily faint and we should make sure the organizer provides **s** enough water for the participants and ~~get~~ **sets up** some resting stations **s** for people to take a break when they need to. Erm, do you have any ideas?

A:

Apart from the safety problems, I believe that the resources allocation is very important and ~~may be a~~ ... may be one of the possible problems when organizing the Fun Day. Erm, if we are choosing lion dancing or photo racing, we have to allocate resources like ... money for the cameras **s** or to hire ~~the~~ **a** coach, so it may be one of the problems that we ~~have to~~ **may** encounter

while ... organizing this Fun Day. So, is ~~is~~ **are** there any other problems that we may face?

C:

Well, we may also have to ... consider the number of participants in order to ... arrange the time and place for the activity, for example, lion dancing. We have to ... have enough ~~place~~ **space** ... to have the lion dancing, and also have the right ~~amount~~ **number** of coaches ~~es~~ for the ~~amount~~ **number of** students so that it will be a safe activity to participate in. Erm, why don't we ... talk about some other unusual activities to include in the Fun Day? Erm, I ... in my opinion, I ... ~~trampoline~~ **trampolining** will be also a great idea as it is quite popular in Hong Kong nowadays. ~~which~~ **People** love to jump around, and they will also find it fun and it is also effective in burning calories and to keep fit. Erm, do you have any other activities?

A:

I also think that ~~trampoline~~ **trampolining** is a very ... fantastic idea. I think unusual activities do not have to be very weird. Some ... activities that we seldom have the chance to do ~~it is also~~, also can be included, ... like aerobic dancing, ... antigravity yoga and pole dance. Erm, do you have any other ideas?

B:

I think holding a memory racing competition is feasible as well. It can just be organized in the hall of the school and the students have to memorise the picture of a famous artist and try to draw it on the other side of the hall. And this can, on the ~~other hand~~

can ... on the one hand, ~~they can~~ enhance the students' memory capacity and on the other hand, ~~promoting~~ promote exercise.
